

Michael McEvoy

Founder & CEO:

www.MetabolicHealing.com

Michael McEvoy is a clinician and educator who is creating Functional Medicine-based platforms, which integrates modern health data analysis with evidence-based therapeutic interventions using nutraceutical and botanical formulations.

Michael is a systems creator, integrator and synthesizer of diverse clinical modalities.

Through unique educational and teaching endeavors, Michael's objective is to assemble a network of the world's top clinicians to meet the demands and challenges of 21st century functional medicine, and to implement the analytical tools and frameworks required.

Michael can be considered an intelligence agent/expert scouring the diverse sources coming online in order to assist practitioners through evidence-based models, tools, and education.

He is currently designing the Metabolic Healing Educational Institute, a vital adjunct to clinicians committed to cutting-edge continuing education.

EXPERIENCE

Radiant Health Now 2007-2009

Founder & primary nutritional consultant. Clinician, educator, consultant

Functional Diagnostic Nutrition Institute 2013-2015

Contributor of Research & Development. FDN II, Module 3: Environmental pollutants & urinary metabolic profile

Direct Healthcare Laboratory Clinical Advisor 2017

One-on-one consultations with doctors and healthcare practitioners to consult over patients with blood and urine testing results

Metabolic Healing, Inc 2009-Present

Founder, CEO & Head Clinician. Operations director, author of 300 research-oriented web articles. Since 2007 have conducted more than 2,000 nutritional consultations. Have analyzed more than 2,000 blood tests, & hundreds of additional functional lab tests.

May 2010 - Author: Metabolic Type Nutrition Clinical Manual

June 2012 - Author: Blood Chemistry 101: Clinician's Manual

October 2013-2016 - Author: Clinical Genetics & Methylation Quick Reference Guide

2013-2014 - Creator & Course Presenter: Functional Blood Chemistry & Nutritional Analysis (23.5-hour video certification course)

2013-2014 - Creator & Course Presenter: The Nuts & Bolts of Nutritional Physiology (4.5-hour video course)

2013 - Creator & Course Presenter: Understanding & Healing Your GI Tract & GI Symptoms (4-hour video program)

2013-2014 - Creator & Course Presenter: The MTHFR, Methylation & Biochemistry Master Course (10.5-hour video certification course)

2014-2015 - Creator: The Functional Blood Chemistry Analyzer®: Web-based data entry and blood chemistry software system. Capabilities: Analysis of 68 blood chemistry markers, identification of 83 physiological patterns, protocol generation & premier clinical analysis features

2016 - Creator & Course Presenter: The Blood Sugar & Insulin Resistance Mastery Course (8-hour video certification course)

2016 - Creator & Course Presenter: Estrogen Methylation & Detoxification (6.5 hour training module course)

2012-2016 - Featured health expert on numerous web conferences & online health summits

April-June 2012 - Creator & Course Presenter: Metabolic Typing® online webinar program

August 2013 - Creator & Course Presenter: Functional Blood Chemistry & Nutritional Analysis: 4-week webinar program

December 2013-Present: Research projects with Richard Seiter & Lynne August, MD: Statistical data analysis of NHANES database. Use of Intracellular Potassium As Health Biomarker & Effects on Cell Membrane Electrophysiology

2014-2016 - Creator: Metabolic Healing Nutrigenomics Report: Genetic SNP data analysis platform based on 23andme raw data file. Screens for several hundred SNPs. Includes multiple arenas of research & development, analysis & literature mining.

2016 - Creator & Course Presenter: Mastering Functional Lab Test Analysis: 11-hour, 4-week clinical training program

COLLABORATIONS

Lynne August MD - 2011 - Present: clinical work & consulting. Clinical research involving implementation of Revisci-derived therapeutic lipids & associated biomarkers

Michael Borkin ND - 2015 - Present: Investigation into relationship of genetic testing with biochemical testing

Shawn Bean - 2015 - Present: Clinical work & clinical, scientific research collaborations

Rich Seiter - 2012 - Present: Clinical research projects related to health biomarkers, & statistical data analysis

Judy Mikovits, PhD - 2016-2017: Clinical research related to ALS & anti-retroviral therapy

East Week Free Clinic Charity - 2015 - Present: Functioning in capacity as herbalist to low income communities in Santa Cruz CA on monthly/bi-monthly basis

EDUCATION, CONFERENCES, CERTIFICATIONS, CONTINUING EDUCATION

Applied Nutritional & Darkfield Microscopy Certification, Create Vibrant Health: February 2007

Hair Tissue Mineral Analysis Training Program, Lawrence Wilson, MD: 2007-2010

Metabolic Individuality Nutrition & Blood Chemistry Analysis, J. Marlowe: June-September 2008

Metabolic Typing® Certification Training Course (CMTA), Healthexcel, Inc: April 2009-November 2009

Certified Nutritional Consultant (CNC), AANC: October 2008-April 2009

Functional Diagnostic Nutrition (FDN) Practitioner: Functional Diagnostic Nutrition Institute: December 2010-December 2011

Functional Blood Chemistry Analysis & Revisci-Based Lipid Therapies: Health Equations, Inc. Lynne August, MD: March 2011

Pathways to Health Conference: Amy Yasko ND, PhD: September 2012, Portland Maine

East West School of Planetary Herbology, Michael Tierra OMD, LaC: August 2013-Present

SHEICON 2016 - Scottsdale, AZ: April 21-24: Functional Medicine & Nutrigenomics conference

July 2016: 50-hour Summer Retreat with Dietrich Klinghardt, MD, PhD; East Sussex, UK: Energetic Medicine, Autonomic Response Testing levels 1-2

SKILLS

- Integrative & holistically oriented nutritional analysis
- Nutrigenomics: Analysis of genetics testing & integration of clinical nutritional therapies & biochemical testing
- Functional medicine-oriented testing & therapeutic interventions: Integration, analysis & implementation
- Botanical & plant medicine formulary & implementation
- Klinghardt Autonomic Response Testing levels 1-2
- Implementation of refined nutritional therapies & to navigate complex case studies
- Routinely provide consulting to physicians & other healthcare professionals in the use of testing analyses and holistically-oriented approaches
- Skilled & articulate author, lecturer & public speaker
